### Nursery News

We have been so impressed with how much effort our Nursery children have made to walk to school this week. Well done! We have enjoyed reading about Leaf Man, made our own pictures just like him and worked our arm muscles hard by sweeping up the leaves from our Nursery playground. This will help our writing as our bodies grow and develop.

## Active Travel

Thank you to all the children and grown-ups who have taken part in any of the 10 day Active Challenge activities this week. We've seen some red-faced parents as they hiked up that hill! The hall was full this morning of children enjoying an additional breakfast whilst they caught up with friends. Thank you to staff who organised and 'manned' this morning as well as classrooms and gates to make it a safe and pleasant thing for our young children to do.

Lots of children were a little nervous this morning about learning to ride their bikes but Amy has been brilliant and so patient as she has taught group after group how to balance and 'fly' and then pedal for all they were worth once they'd mastered the first skill.

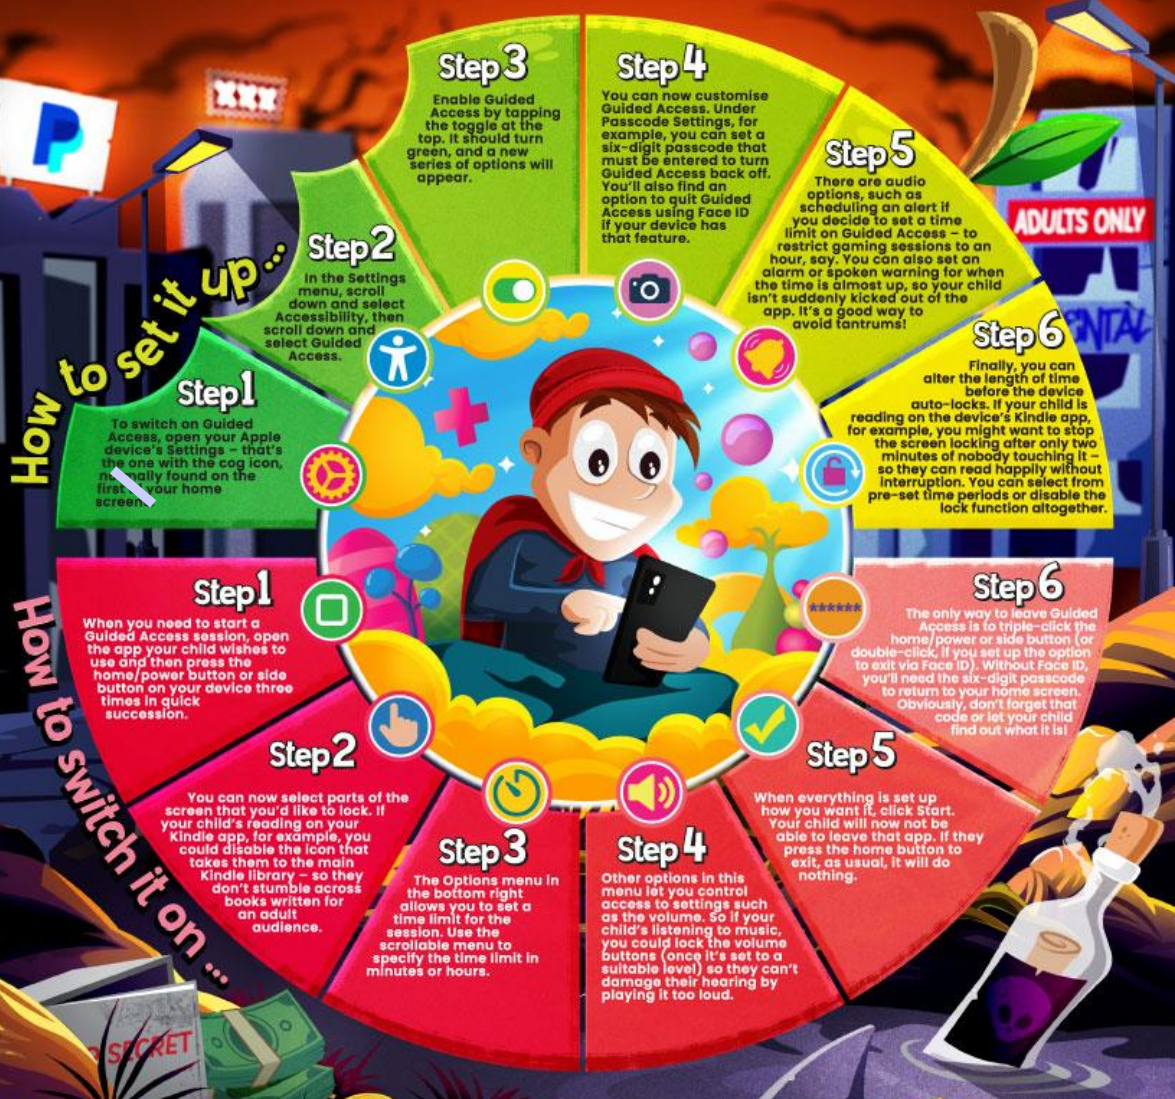

Next week we have: Ride your Scooter to school on Monday; Tuesday Shoesday; come with anything wheeled on Wednesday and an 'I spy walk to school' to finish with on Thursday. Don't worry if you don't remember all this, we've set eschools to send you a reminder each night.

# What Parents and Carers Need to Know about APPLE GUIDED ACCESS

iPhones and iPads don't offer separate user accounts. So when you hand your Apple device to a child to play a game or watch a video, you're also handing them access to your email, the web, messaging and numerous other apps through which they could accidentally do something regrettable.

Apple Guided Access solves this potential problem by letting you restrict the iPhone or iPad to one particular app whenever your child uses the device. If they try and leave that app, they will be asked for a password or Face ID, meaning they can't access anything they shouldn't elsewhere on the device. Here, we show you how to find and set up the Guided Access feature, so you can confidently let your child borrow your iPhone or iPad.
