### Year 2 Cricket Festival (Thursday 15<sup>th</sup> June)

The cricket festival at Stocksbridge Cricket Club for our Year 2 children previously scheduled on Thursday 15<sup>th</sup> June has been postponed. When we receive a revised date, we will let you know.

## Nursery News

How wonderful it was to share the children's news after their holidays. They all had so much to tell us with lots of photos to look at too. We bid a fond farewell to our little frog this week as we set it back in the pond after watching it grow day by day and we also let our butterfly flutter away after it emerged from its chrysalis. Thank you to everyone who came to support Sports Day. We thought the children did amazingly well and were very proud of them all.

## Star of the Week

Isaac Cheetham has been such a kind little boy at Nursery. Every time we have needed somebody to just do a little job this week, he has been there to help - picking things up, fetching, carrying and tidying. We have been so glad that he has made our lives just that little bit easier in such a busy week. Thank you Isaac!

FOSNI have also arranged for the school to receive commission from sales of school uniform labels from STIKINS. The labels are a great way to make sure all of your child's belongings find them again if lost.

A leaflet with prices and instructions about how to order is attached to this newsletter for information. Please use our school fundraising number 22378 when ordering. Thank you!

### **Cleaner vacancy (All school inc Nursery)**

### **Toys and other personal belongings in school (All school inc Nursery)**

We prefer children to leave their toys and other personal belongings at home. They are a distraction in school and often lead to conflict and upset if they are lost. This includes things like decorative keychains on bags. Some went missing before the half term holidays and finding them and working out what had happened takes up time. Thank you.

### **Stocksbridge Food Bank (FAO - all school inc Nursery)**

The Food Bank is located upstairs in IKON Church on Manchester Road. No referral needed. Anyone can visit the new shop and pick their own items at 10-12pm on Tuesday and Thursdays. Citizens Advice are also in attendance to answer questions and offer support if needed.

We have set up a survey monkey for you to let us know what arrangements you would like us to make for your child. **Please visit** <https://www.surveymonkey.co.uk/r/SJSTransitionLUNCH> **by Friday 16th June. Thank you!**

## #Team Theo

We have been asked to mention a fund-raising event being undertaken by parents of children at SNIS.

Six Stocksbridge locals are attempting to cycle coast to coast Southport to Hornsea to raise funds for Sheffield Children's Hospital. They will be travelling along the Trans Pennine Trail over three days to complete the 210-mile journey, which is taking place at the end of June.

They will pass through Dunford Bridge, Penistone and Oxspring June 30<sup>th</sup> - 1st July and would love some support along the way. Families are welcome to ride along with them for a mile or so, if they would like to.

Their Just Giving page is [https://www.justgiving.com/fundraising/lee-shepherd12?utm\\_source=IG](https://www.justgiving.com/fundraising/lee-shepherd12?utm_source=IG) and a link to their Instagram is provided above.

They are also in the process of arranging a quiz night and a raffle. If you are able to offer any donations or assistance with this they would love to hear from you. You can contact Lee Shepherd on 07923 574946

## Sports' days and Family Picnic

Many thanks to parents for coming along and sharing the time with us. We all enjoyed it and we hope you did too. I'd just like to say thank you to staff, all of them. The day was a success because it was a team effort. Every single person did extra on Tuesday, Wednesday and Thursday to make it work for the children and for yourselves.

## What Parents & Carers Need to Know about

# OMETV

### WHAT ARE THE RISKS?

OmeTV is another app which encourages users to 'make friends from all around the world'. People can search profiles by age and gender and send direct messages or photos. However, the app is primarily used for video calls. When using this feature, users are connected at random, although only their country of origin is shared. People can then either choose to move on to the next chat or can stay in that call for as long as they wish.

### STRANGER DANGER

While young people generally know not to share personal information with strangers, the safety of their home and the distance offered by technology can make them feel more relaxed and uninhibited. Combined with the fact that OmeTV provides a webcam function – and anonymity – it can be an easy way for groomers to gather information, ask to connect on other social media platforms, or potentially request intimate images.

### EXPLICIT CONTENT

Unfortunately, there are a lot of users who use OmeTV's webcam feature to expose themselves. While users can swipe to the next call quickly, it's not something that can be filtered out completely – so young people could easily be exposed to highly inappropriate images.

### REPORTING DIFFICULTIES

When video calling, the other person's username is often hidden and therefore they can't be blocked or reported. There is a 'Report Abuse' tab at the bottom of the video, but the speed with which calls can swipe past can make it difficult to use this system. There's also little evidence to suggest that offenders are dealt with appropriately (through warnings or account termination, for example).

### AGE VERIFICATION

17+

Although the site states that users must be 18 or over, there's no way to verify this, and it's easy to use an existing Facebook account to log in, or for users to set up a fake account. To access OmeTV, users simply need to press a button confirming they're an adult, which means it's likely many users will claim to be much older than they are.

### VIDEO RECORDING

When young people are chatting live on a webcam, they could be coerced by others into doing things they don't feel comfortable doing, or persuaded that no harm can come from it. What they don't know is whether the other user is recording them. These videos could then be used to embarrass or blackmail them, or they could be kept by a potential online predator.

### LIMITED PARENTAL CONTROLS

OmeTV has very limited parental controls. There is a 'safe mode', but this is of little practical use given that explicit content isn't filtered out. While the site lists several rules and regulations, there are few apparent ways to enforce them or restrict what users can see or do.

## Advice for Parents & Carers

### FOLLOW AGE GUIDELINES

OmeTV has an age recommendation of 18 and over, which suggests the developers are aware that it may facilitate adult content. It's important to adhere to the age guidelines and try to restrict access to the app for younger users. If you find it on an under-18's device, talk to them about the potential risks and explain why they probably shouldn't be using it.

### DISCOURAGE CHATS WITH STRANGERS

Remind your child of the dangers of talking to strangers online. The anonymity OmeTV offers, plus its webcam function, makes it an attractive place for groomers to network and create inappropriate content. Explain that your child may see something which upsets them – and that it's a crime for anyone to expose themselves to a young person online.

### DISCUSS THE DANGERS

Maintain communication with your child about online safety and empower them to protect themselves. Simply deleting an app from their device impacts their independence and can cause resentment. Instead, highlight news reports of predators exposing themselves to children on the internet, and discuss what they should do if asked for explicit images.

### ENABLE PARENTAL CONTROLS

Regardless of how responsible your child may be, it's essential to use parental controls on their device. It's easy for young people to get lured in by others, feeling they've built up a trusting friendship and being coerced into doing things they wouldn't normally do. Ensure in-app purchases aren't enabled on their device, and emphasise that they can always talk to you about anything online that worries them.

### Meet Our Expert

She has written various academic papers and carried out research for the Australian government comparing internet use and sexting behaviour of young people in the UK, USA and Australia.
