Active Travel – making a short film on the 14<sup>th</sup> May.

We have been asked to support the Local Authority to make a short film about what's great about Active Travel. Your child should have brought home a letter about it today. If you are happy for your child to take part, please sign the permission slip and send it back into school.

### **Supporting Maths at Home**

Use a story cube or a <u>dice net</u> and add details to each face. One could have +10. Another could be -10. If your child is working on multiplication they could say X1, X2, X5, X10. X0 is always a good one to add in. Think of a number, roll a different dice or turn over a card with numbers written on. Roll the homemade dice and answer the question.

85	86	87	
88	89	90	

For children interested in nets and who like an investigation, this is great.

### **Buildings Officer Advert**

This is something I never wanted to write, but write it I must. The wonderful Mr Grocock is leaving us at the end of this academic year to do something different and with slightly less hours than he works at the moment! This box isn't big enough to explain how much he'll be missed or how grateful we have been to him for how well he has done his job for the last 24 years. Stocksbridge Nursery Infant School has been very lucky to have him. Along with this newsletter, is an advert for a Buildings Officer. The advert, job description and application form can also be found here.

# What Parents & Educators Need to Know about

WHAT ARE THE RISKS?

In today's digital world, it's increasingly common for children to form friendships with people they've never met in person. While online connections can offer children a sense of belonging, they also carry significant risks. Around 19% of children aged 10 to 15 in England and Wales have chatted online with someone they've never met face to face. This guide offers expert advice for parents and educators on helping children navigate online friendships safely.

### COMPROMISED PERSONAL SAFETY

Meeting an online 'friend' in real life risks placing a child in serious danger. From abduction to coercion, the consequences can be devastating. Reports of children being harmed after such meetings are becoming increasingly common in the UK, highlightight the need for safeguarding intervention.

### **PSYCHOLOGICAL**

Online harm – such as cyberbullying, grooming or exposure to disturbing content – can lead to long-term emotional issues, including anxiety, depression and PTSD. 'Sextortion' gangs, who threaten to release sexual information about a person unless they pay them money, have reportedly targeted children as young as 11, eaving them traumatised and ashamed.

### LONG-TERM REPERCUSSIONS

Children exposed to harmful online relationships early on may develop unhealthy beliefs about relationships, consent, or self-worth. In a recent case, a 26-year-old posed as a girl on Snapchat to befriend children aged 10 to 16, manipulating them into sexual activity and causing profound emotional distress. One 12-year-old tragically died by suicide, highlighting the long-term psychological harm online friendships with strangers can cause.

### ONLINE GROOMING **THREATS**

edators can use games, chat apps or cial media platforms to build relationships with children and gain their trust. This may quickly develop into grooming or exploitation. Between April 2017 and March 2023, UK police recorded nearly 34,000 online grooming offences – an 82% increase in just five years.

### **EXPOSURE TO** INAPPROPRIATE CONTENT

Children may encounter distressing or explicit material while interacting with online contacts – especially via TikTok, Instagram or Snapchat. This is evidenced in a

personal details – such as where they live or go to school – without understanding the consequences. In fact, 4.4% of 10 to 15-year-olds in the UK have met up in real life with someone

# 26 FRIENDS ONLINE NOW

Advice for Parents & Educators

### TEACH SAFE ONLINE HABITS

Help children understand how to use privacy settings, protect their personal information, spot fake profiles, and report anything suspicious or concerning, like pressure tactics. Encourage them to think critically a what they share – and whom they're talking to.

### **KEEP CONVERSATIONS OPEN**

### **ENCOURAGE REAL-WORLD CONNECTIONS**

Support children in building friendships through school, clubs, hobbies and

### **USE PARENTAL CONTROLS**

Parental control settings on devices, games and apps can help manage screen time, filter out inappropriate content, and monitor activity. While no system is perfect, they provide a valuable layer of protection as children explore digital spaces.
